

## W026/4200/1 DUCATI DESERTX TWO-FINGER LEVERS

August 2024

### Why do you want to fit this part?

- To make the use of the front brake and clutch lever more comfortable without pinching your fingers when pulling the clutch.

### This part fits on the following motorcycle:

- Ducati DesertX

### Part list:

- 1 x Two-Finger Front Brake Lever – Nr.26B
- 1 x Two-Finger Clutch Lever – Nr.26C
- 1 x Pivot Pin for Brake Lever
- 1 x E-Clip for Brake Lever

### Tools needed:

- 10mm Spanner
- 5mm Allan Key
- 5mm Drill Bit
- Drill
- Flat Screwdriver

### Fitment Instructions:

#### Two-Finger Clutch Lever

**Step 1:** Loosen the indicated bolt in red using a 5mm Allan Key and 10mm Spanner.

Pull the lever outwards to remove it from the motorcycle. It is hydraulic and no cable to worry about.

**Step 2:** Push the E-Clip out with a Flat Screwdriver and push the pin out using the Allan Key to remove the perch.

Take note not to lose the small ball and spring on the inside.

**Step 3:** Unscrew the Adjuster Knob.

**Step 4:** Transfer the perch onto the Wild@Heart lever by follow the above steps in reverse order.

---

**Two-Finger Brake Lever**

---

Repeat Steps 1 to 4 of the above Clutch Lever instruction, for the Brake Lever except for Step 2.

Replace Step 2 for the Brake Lever with the following:

Remove the Pivot Pin, indicated below, by breaking the rivet's head. Use a drill and 5mm drill bit to do so. Drill right in the centre of the rivet head, very carefully and slowly until the head breaks.

Replace the OEM Pivot Pin with the Wild @Heart supplied Pin and E-Clip.

**Note: Make sure all bolts are fastened on both sides and that the levers fit properly before riding. Enjoy the trip!**

All parts and accessories are fitted at own risk. Wild at Heart Adventure (Pty) Ltd. and the directors do not take any responsibility for any damage or injury due to the fitment or use of the accessories.
